Re: Decreasing enforcement funding in FY 2019 DHS Appropriations bill

Dear Majority Leader McConnell, Leader Schumer, Speaker Ryan and Leader Pelosi:

We, the undersigned organizations, urge you to reduce funding for this administration's harmful border militarization and immigration enforcement policies. Any increase in funding will facilitate family separations, cause irreparable harm to the border region, and incentivize mass detention and deportation—policies that tear apart the fabric of our families and communities.

Instead of passing a full-year spending bill for the Department of Homeland Security (DHS) when the continuing resolution expires on December 7th, we ask that you pass a clean, short-term continuing resolution for DHS. Specifically we seek a continuing resolution without border wall funds that add to the more than \$2 billion spent by this Congress on border barrier construction and without extra enforcement funds that allow Immigration and Customs Enforcement (ICE) to continue to overspend on beds and agents. Please do not reward the agencies responsible for harmful policies that pay no heed to border communities' quality of life and traumatize migrant and citizen children as well as their families.

We cannot treat funding for immigration detention and enforcement or border wall construction like business as usual. This administration forcibly took more than 2,600 children from their parents at the border last spring. Over ninety days have passed since a court deadline to reunite these families and, still, over 50 children remain separated from their families. Any increase in funding for DHS for another fiscal year while children remain separated and while the administration contemplates turning refugee families away from the border on the basis of nationality is tantamount to absolving this administration's despicable actions.

Furthermore, by terminating the Deferred Action for Childhood Arrivals (DACA) program and Temporary Protected Status (TPS) for hundreds of thousands of people, the administration is engaging in yet another type of family separation policy. Congress has the ability to promote clean, permanent solutions for these communities outside of negotiations on DHS appropriations. These communities are not bargaining chips to be used in appropriations conversations that would include provisions that tear apart families and loved ones, including those who have lived in the United States for decades and have U.S. citizen family members. ICE and Customs and Border Protection (CBP) agents have daily abused their power in this Congress, especially in communities of color, ignoring oversight, evading accountability and misusing taxpayer funds.

We specifically ask you to reject *all* funding for President Trump's border wall, including funding for new and expanded border fencing, barriers, levee walls, and conversion of vehicular to pedestrian barriers, in the FY 2019

appropriations process or other legislative vehicles. Border walls divide communities and tribal nations, cut through sensitive ecosystems, devastate the environment, threaten wildlife, eviscerate the rights of private property owners, cause catastrophic flooding, and contribute to thousands of migrant deaths. The Senate FY 2019 DHS appropriations bill contains \$1.6 billion for wall funding—resources that would irremediably wall off virtually all of south Texas’ Rio Grande Valley. The \$5 billion for border wall contained in the House FY 2019 DHS appropriations bill would cause even more harms to border residents’ homes, public lands and communities, not to mention American values. *Any of these funds sought for the border wall is harmful and unnecessary.*

Given the border wall’s profound impacts, we implore you to do everything in your power to conduct urgently-needed oversight of the billions of border wall dollars identified by the Government Accountability Office as lacking cost-benefit and effectiveness analysis. Instead of wasting hard-earned taxpayer dollars on a costly and unnecessary wall, this funding could be used instead to improve schools, roads, and health clinics that communities in the border region and across the country desperately need. When deciding how to spend taxpayer funds in the southern border region, we urge you to do what DHS refuses to: consult with local leaders who know the needs of their communities.

In addition to our concerns about the harmful impacts of a wall on the border region, we are worried that money appropriated for that purpose could be reprogrammed to pay for other cruel and destructive policies that cost more than Congress is willing to appropriate. In essence, the billions of dollars earmarked for a wall could quickly become a piggy bank for unilateral administration policies such as jailing children. We have seen ICE abuse its transfer and reprogramming authority by ushering \$200 million from other parts of DHS into its detention and removal apparatus.

ICE has also failed to comply with many reporting requirements from the FY 2018 appropriations bill, continues to expand detention capacity by spending beyond its appropriated dollars, and has doubled-down on problematic contracting mechanisms already flagged by DHS’s own Inspector General. In recent weeks, ICE has discretionarily detained an average of 2,000 more individuals per day than the 40,500 average population for which they have appropriated funds. Any increase in funding at this time would be rewarding the agency for a continued and egregious pattern of fiscal mismanagement.

The undersigned organizations are united in fighting for immigrant and border communities and want clean, permanent solutions that do not tear our families apart, harm loved ones or undercut other community members. We call on you to demonstrate bold leadership and work to re-align federal spending with our shared values of dignity, fairness and common-sense.

Signed,

ACLU
